Over 50 awesome art projects in a box delivered to your classroom.

LEARN MORE

LESSON PLANS

Simple budget friendly projects designed for Teachers.

LEARN MORE

The tactile nature of making something with your hands, learning a new creative technique, using your brain to problem solve and develop critical thinking skills, taking risks in making and creating something new and different - these are all so important to our children's education.

Raw Art's 2027 program celebrates creativity, inspiration, imagination, and exploration.

We have 36 awesome art workshops, over 50 different DIY classroom kits, activities which explore tactile media, cutting, weaving, printing, sculpture, clay, printmaking - all the fun (and educational) stuff.

Creative kids are happy kids!
Let's get creative with your class in 2027!
