Hello wonderful educators!

In our 31st year of visiting schools with our amazing art program, we are as excited as ever!

In this tech-obsessed world our children are losing touch with their creative skills. But we won't let that happen! Our sole focus is getting kids back to using their hands (and minds) for drawing, painting, cutting, threading, weaving, moulding, printing and sculpting.

Our program develops **fine motor skills**, **improves critical thinking** and **problem solving**, and most importantly - **builds on self esteem**.

Our 2025 workshops range from weaving through to sculpture, supports literacy and numeracy, with a focus on culture and sustainability. We are also drawing inspiration from a number of different artists and architects, to create bold, vibrant and original masterpieces.

As always our program is **budget friendly** - we come direct to your classroom with all of the resources. No need to worry about the

expense of buses and transport - we love keeping it simple!

Don't forget our extensive **DIY kit range** designed specifically for teachers - art projects delivered right to your door. We have also launched our **CREATIVE LESSON PLANS** - check out our fantastic Australian focussed projects - carefully and thoughtfully considered projects that are fun, simple, and mindful of the resources most teachers have available in the supply room!

We are also excited to be welcoming **MELBOURNE** schools into the RAW Art fold. Having worked in Brisbane schools and Sydney schools now for 30 years, we can't wait to get creative with a new region.

Our **passionate and professional RAW Art team** members are getting those art aprons ready - let's get arty!

Tracy x

TRACY MCDOWALL -
DIRECTOR OF RAW ART SINCE 1994

- Over 30 new workshops
- Curriculum aligned activities
- Free extension ideas for teachers
- Free activity sheets for students
- No mess no stress!

Bonus OFFER

Book into the new RAWart 2025 Program before the end of Term 1, 2025 and receive a discount.
