

# RAW ART

MOTIVATE CREATE EXPLORE

## KINDY/PRE-SCHOOL PROGRAM

RAW Art has been running creative, hands-on, educational children's art workshops for the past 28 years. We are a motivated and passionate team of professional teachers and artists, who love getting creative with children.

We have an exciting program on offer suitable for Kindys, Childcare Centres, ELC's and Pre-schools. Workshops designed for 3-5 year olds, ranging from clay and printmaking to sculpture and mixed media. Our workshops suit little hands and growing minds, and are sensitive to children's needs and requirements.

- Discover fun new processes • Learn a range of concepts • Build on literacy and numeracy skills
- Develop fine-motor skills • Finish each lesson with an exciting completed artwork

"The staff and children at Kidzco Early Learning Centre (Springwood) highly recommend Raw Art. Our children look forward to their art lessons each Monday. The lessons are always fun, engaging and age appropriate. We will definitely be continuing with Raw Art as part of our ongoing Kindergarten Program."  
Robyn, Kidzco ELC @ Springwood

"We look forward to having Raw Art every week. Our teacher always provides an educational art program for our Junior Kindy and Kindergarten children. We are always impressed by the way RAW Art facilitates the power of learning through different art mediums."  
Little Locals, Auchenflower.

"We have been running the RAW Art program for children aged 3-5 years for the past few years. We have a brilliant facilitator, who has a great understanding of child development and the need to modify lessons to suit the needs of the children. The children are encouraged to work through steps to learn a skill whilst still being encouraged to make it their individual piece of art. It has been a very valuable and rewarding program."  
Nicky, Director - Tricias Playgroup @ Cannon Hill

TRACY MCDOWALL - DIRECTOR OF RAW ART SINCE 1994
