Artist Spotlight Drawing/Painting	Geometric Lanterns Mixed Media/Sculpture

Hello wonderful educators! Happy Birthday to us! We are SO excited to be celebrating 30 years of RAW Art!

So much has changed over three decades. From three fresh-faced uni students setting up our regional program in Murgon to teaching thousands of students every year across Queensland and NSW. We had no idea that it would grow into the amazing dynamic team of artists it is today, and covering the far and wide regions of Queensland and NSW schools, childcare centres, and OSHCs.

It only seems like yesterday we were doing all our bookings through the fax machine! We have watched classrooms transform from using black boards and encyclopedias to smart boards and iPads, and from rows of brown tables, to colourful flexible learning spaces. One thing that hasn't changed is our belief that art is critical to helping growing minds expand even further.

We don't want to see the ease of technology reduce your students' fine motor skills and hands-on processes - rolling a ball of clay, weaving wool, drawing detail, using a ruler and cutting with scissors - so we have created a program that drills in on those critical skills. Creativity brings us much needed respite from our busy lives, and supports and nourishes our sense of well being. For our children, art and creativity has never been so important.

- Art has so many benefits in nurturing our children's growing minds.....
- Relieves stress and anxiety
 - Encourages creative thinking
 - Increases brain plasticity
 - Boosts self esteem and confidence
 - Enhances problem solving skills
 - Encourages whole brain thinking
 - Boosts focus and concentration
 - Allows for mindfulness
 - Improves fine motor skills
 - Decision making skills are developed
 - Observational skills are improved
 - Language development
 - Develop literacy and numeracy concepts

We thank all our teachers and schools for your ongoing support and value your belief in a balanced education that encourages curiosity and creativity. Here's cheers to creative kids!

Tracy x

TRACY MCDOWALL - DIRECTOR OF RAW ART SINCE 1994

- Over 30 new workshops
- Curriculum aligned activities
- Free extension ideas for teachers
- Free activity sheets for students
- No mess no stress!

Bonus OFFER
Book into the new RAW Art 2024 Program before the end of Term 1, 2024 and receive a discount.
